A database entity-relationship (ER) schema diagram. The principal tables and their key fields include:

- **timezone**: id_timezone serial PK; name character varying(32)
- **tax_lang**: id_tax integer PK; id_lang integer PK
- **tab_lang**: id_tab integer PK; id_lang integer PK
- **supplier_lang**: id_supplier integer PK; id_lang integer PK
- **subdomain**: id_subdomain serial PK
- **search_engine**: id_search_engine serial PK
- **scene_lang**: id_scene integer PK; id_lang integer PK
- **quick_access_lang**: id_quick_access integer PK; id_lang integer PK
- **quick_access**: id_quick_access serial PK
- **profile_lang**: id_lang integer PK; id_profile integer PK
- **product_lang**: id_product integer PK; id_lang integer PK
- **order_state_lang**: id_order_state integer; id_lang integer
- **order_return_state_lang**: id_order_return_state integer; id_lang integer
- **order_return_state**: id_order_return_state serial PK
- **order_message_lang**: id_order_message integer; id_lang integer
- **order_message**: id_order_message serial PK
- **meta_lang**: id_meta integer PK; id_lang integer PK
- **meta**: id_meta serial PK
- **manufacturer_lang**: id_manufacturer integer; id_lang integer
- **lang**: id_lang serial PK
- **image_type**: id_image_type serial PK
- **image_lang**: id_image integer; id_lang integer
- **feature_value_lang**: id_feature_value integer PK; id_lang integer PK
- **feature_lang**: id_feature integer PK; id_lang integer PK
- **discount_type_lang**: id_discount_type integer; id_lang integer
- **discount_lang**: id_discount integer PK; id_lang integer PK
- **customization_field_lang**: id_customization_field integer PK; id_lang integer PK
- **country_lang**: id_country integer; id_lang integer
- **contact_lang**: id_contact integer; id_lang integer
- **contact**: id_contact serial PK
- **configuration_lang**: id_configuration integer PK; id_lang integer PK
- **configuration**: id_configuration serial PK
- **cms_lang**: id_cms integer PK; id_lang integer PK
- **category_lang**: id_category integer; id_lang integer
- **carrier_lang**: id_carrier integer; id_lang integer
- **block_cms**: id_block_cms integer PK; id_cms integer PK
- **cms**: id_cms serial PK
- **attribute_lang**: id_attribute integer PK; id_lang integer PK
- **attribute_group_lang**: id_attribute_group integer PK; id_lang integer PK
- **attachment_lang**: id_attachment serial PK; id_lang integer PK
- **alias**: id_alias serial PK
- **group_lang**: id_group integer; id_lang integer
- **order_return_detail**: id_order_return integer; id_order_detail integer; id_customization integer PK
- **order_slip_detail**: id_order_slip integer PK; id_order_detail integer PK
- **message_readed**: id_message integer PK; id_employee integer PK
